Experience

MakerSquare (2014)

Completed a full-time, immersive bootcamp in software development. Developed projects using JavaScript, jQuery, Jasmine, HTML, CSS, Sass, Sinatra, Ruby, Rails, ERB, RSpec, ActiveRecord, PostgreSQL, SQLite, Git, CLI, and Vagrant.

- Applied frameworks such as AngularJS, Backbone.js, Bootstrap, and Foundation. Worked individually and with teams to complete the curriculum.

Ingenio.us

Web application designed as a teaching tool for algorithm lessons.

- Built with Angular, JavaScript, HTML, and CSS.

Brewhaha

Web application to find breweries based on user input. Accesses brewery details via an API and displays the information on a map.

- Built with Ruby, Sinatra, Javascript, HTML, CSS, ERB and Leaflet, a JavaScript mapping library.

Owner/Instructor, Private Trumpet Studio (2000-Present)

Maintained a thriving 40 member studio of private trumpet students in grades four through twelve.

- Constructed and executed plans in congruence with schools to achieve student goals.
- Communicated scheduling and student progress with multiple schools and families.
- Responsible for the business budget and taxes.
- Recruited new students and schools.
- Regularly instructed sectionals and master classes for a variety of schools and grade levels in preparation for performances, competitions, and basic musical instruction.
- Students regularly earned high marks in their respective school bands, All District, All State, and Solo and Ensemble contests.
